## Hazards identification:

Not a hazardous substance or mixture according to Regulation (EC) No. 1272/2008.

This substance is not classified as dangerous according to Directive 67/548/EEC.

Rapidly absorbed through skin.

## First aid measures:

**After inhalation:** If inhaled, remove to fresh air; if breathing is difficult, give oxygen; if breathing stops, give artificial respiration.

**After skin contact:** flush with copious amounts of water; remove contaminated clothing and shoes; call a physician .

**After eye contact:** check for and remove contact lenses and flush with copious amounts of water; assure adequate flushing by separating the eyelids with fingers; call a physician.

**After swallowing:** if swallowed, wash out mouth with copious amounts of water; call a physician. Do NOT induce vomiting. Never give anything by mouth to an unconscious person.

## Fire fighting measures:

**Suitable extinguishing agents:** water spray, carbon dioxide, dry chemical powder or foam

**Protective equipment:** wear self-contained breathing apparatus and protective clothing to prevent contact with skin and eyes.

**Unusual fire hazard:** emits toxic fumes such as carbon monoxide, Sulphur oxides etc.

## Accidental release measures:

**Person-related safety precautions:** cordon off area of spill; Use personal protective equipment. Avoid breathing vapors, mist or gas. Ensure adequate ventilation.

Remove all sources of ignition. Beware of vapors accumulating to form explosive concentrations.

Vapors can accumulate in low areas.

**Measures for cleaning/collecting:** absorb solutions with finely- powdered liquid-binding material (diatomite, universal binders); decontaminate surfaces and equipment by scrubbing with alcohol; dispose of contaminated material according to section **Disposal Consideration**

## Handling and storage:

**Information for safe handling:** avoid inhalation and contact with skin, eyes and clothing; material may be an irritant.

Ensure adequate ventilation.

Remove all sources of ignition - No smoking. Take measures to prevent the buildup of electrostatic charge. Beware of vapors accumulating to form explosive concentrations.

Vapors can accumulate in low areas.
